

36" Traffic Safety Cones

Description

Durable 36" orange PVC traffic cone with hi-intensity retroreflective collars for high visibility. Fluorescent orange cone offers UV resistance to fading offering long lasting high visibility protection. Black rubber base provides superior grip and traction on the road or pavement to reduce roll over or tipping. Meets MTUCD standards.

Cones can be customized with our cone printing options to reduce theft and enhance your company's brand visibility. Custom cone printing is available in long wearing black ink.

BMM-3612 is Florida DOT approved for state road use. Includes DOT required stenciling (FL-102-005-045)
